Truancy (absent from school without permission) may be due to delinquency or conduct disorder and can be differentiated from school refusal. The truant student generally brags to others (peers) about not attending school, whereas the student with school refusal, because of anxiety or fear, tends to be embarrassed or ashamed at his or her inability to attend school.

The way a problem is worded and understood has a huge impact on the number, quality, and type of proposed solutions. In this section, we'll begin with the basics, focusing primarily on four things. First, we'll consider the nature of problems in general, and then, more specifically, on clarifying and defining the problem you are working on. Then, we'll talk about whether or not you really want ...

The 80/20 Principle asserts that a minority of causes, inputs, or effort usually lead to a majority of the results, outputs, or rewards. Taken literally, for example, 80 percent of what you achieve in your job comes from 20 percent of the time spent. Thus for all practical purposes, four fifths of the effort--a dominant part of it--is largely irrelevant." To learn how you can tap the hidden ...
